IP501H

Instant Wide Area Coverage Over an LTE (4G) and 3G Network

Full-Duplex Communication

The IP501H enables use of full-duplex communication which provides smooth telephone style conversations. The IP501H users can talk and receive at the same time.

Multiple User Communication

Multiple users in the call groups can initiate calls instantaneously. Removing the need to wait for available channels to communicate.

Priority Interrupt Calling

The IP501H supports group calls with three or more people. In case of an emergency, you can break into an on-going call to transmit an important message.

Industry Leading Compact and Lightweight Body

Compact $59 \times 95 \times 32$ mm; $2.3 \times 3.7 \times 1.3$ in and 240 g; 8.5 oz (approximate) lightweight body* allows non-intrusive mobility and use. * With BP-272 battery pack and antenna. Projections are not included.

IP67 Dust-Tight and Waterproof

The IP501H has been designed to preserve its waterproof integrity in water of a depth of 1 meter for 30 minutes. It can be used for outdoor work or places prone to get wet.

Optional Charger Cradle With Bluetooth® Function

When the optional BC-218, charger cradle and HM-215, speaker-microphone is used, calls can be made with the microphone, while charging the IP501H. Even when the IP501H is not dropped into the BC-218, the Bluetooth® function enables you to wirelessly use the speaker-microphone.

* May not be available in some countries. Please confirm the regulations in your country before you use

Other Features

- · High quality, clear audio using G.726 Vocoder
- · Individual, Group, Talkgroup, Multiplex Talkgroup and All calls
- Emergency button, Lone Worker and Man Down functions
- Vibration alert function notifies of incoming call
- Text message reception and preprogrammed message transmission
- Up to 500 memory address book (including Group, Individual, Talkgroup and Telephone lists)
- Voice message recording
- Built-in Bluetooth® and GPS*
- Gateway device required for GPS data (future).

Interconnect between IDAS™ and IP100H systems

With a gateway device*, the IP501H system will provide interoperability with an IP phone, analogue transceiver, IDAS™ digital transceiver and IP100H wireless LAN network systems in the future. In addition, GPS position data can be obtained from the IP501H transceiver.

* The gateway device will be available in the future
